#### COMPRESSORAT.

HONOLULU, SEPT. 15, 1868. Ora market is well supplied with assorted me appears to be no disposition on the part of either jobbors or retailers to burden themselves with excessive stock, at the present time at least. We have selder heard such a general complaint of the duliness of trade, the retailers in town are absolutely doing noth ing, and the general curtainment of expenses in and around the plantations have affected the country

The Hawalian schooner W H Allen, arrived on th 13th inst. from a sperm whale croise, with some 30 bbis sperm on board, which at the present prices will amount to quite a handsome sum. Our latest dat from New Redford quote sperm at 190 per gallon and advancing. This price of course is in currency, to b affected by the rise or fall of gold. Oil is purchased for the European markets at the above figure. The duty on sporm oil in the United States is 2) per our and in Europe duty free.

The premiers compled by S. F. Pratt, was sold at auction last week, by C. S. Bartow, for \$1,560. Jas.

The steamer Kilaton laye up next week to clear ers, and will recame her trips on the 28th. The D C Murray salls to-morrow with a full cargo of sugars, molasses, poddy, hides, puls, oranges, an a large number of passenge

The fifth annual statement of the Pacific Insura-Company, of San Francisco, shows that their busises is sound and profitable. Their income for the year has been \$700,214, and their expenses, including a dividend of \$50,000 to the stockholders, \$552,283.

Beside the capital stock of \$1,000,000 they have an Phases of the Moon for the month of Sept's available fund of \$433,037 to pay losses and dividends. Their present liabilities is \$25,070-losses in po of adjustment. The amount of risks, fire and ma-rise, in force June 30, 1868, \$31,286,612.

tion, in force June 30, 1868, \$31,286,612.

The company is strong and prosperous. A. J. Railoth, New Moon tools, in Secretary. dam, is Secretary, and the agents in Honolulu are 234, First Quarter

The sits of the 5th ult, says, of money and loans, that "the supply of money is very good and the rates are maintained, but with a tendency to a lower level. The accumulation of capital on this coast is large, and it is recognized that the realization of the present crops will cause a still greater almadance, which must seemilate the rate of inest here to that of old communities. It is therefore the case that the best securities—corporate, city, county and State—appreciate in value, and real estate maintains a steady rate for the best descriptions. There is evidently a desire to improve properly and get it under roots, which will give, in a few months, more humality include the roots which will give, in a few months, more humality includes them can be obtained from other sources, stand the traing values of sound securities naturally curall the incomes derivable from them. There is an increase of mortgages for purposes of improvement. These boars are supplied mostly from corporations, and the deposits in the Savings Banks for the past year have increased \$6,000,000, while the unomployed reserve remains the same. That more yellow for the past of the past of the past, leading the property of the property of the property of the purposes, and this is reguintly supplied et hank raise, leading cant, per month. The leans at terms are in per cent, and fine some cases a shade less."

Pear Wixe.—The port wine district of Portugal fore the case that the best securities-corporate

are allowed to strink, almost the raisits, before they are gathered, to promote the greatest converted of sugar. The vintage runs from the last day of sugar. The vintage runs from the last day of September to the 10th of october, inclusively. The mash is allowed to stand in wate fill thoroughly fermented. It is then drawn off into great casks, there it is watched, and the glucosometer is frequently introduced, till it indicates the proper time for drawing off the wine again, when a certain per count of grape heundry is added to prevent fermentation from going test fir and to prevent fermentation from being leat. The shifting of levancy is necessary, for the same reasons, in sherry and Madelin wines.

eighteen months before shipment to London.

The Joint Committee of the Anglo-American and Athaitic Feliograph Company, of London, with the approval of the Directors of the New York, New Similiand and London Telegraph Company, have decided to reduce the tariff on the transmission of messages of the words (five words additional being allowed for address, date and signature free) between Valentia, Ireland, and Phaister Core, Nova Scotia, to 23, or \$15. The tariff on the land lines west of Plaister Core and east of Valentia, will be an additional charge. The reduction is to take place on and after the lat day of September, 1859, \$24,255,663.

Rathwar Transm.—In the year 1866, \$274,255,663.

and after the 1st day of September, 1868.

Rillway Trayril.—In the year 1898, 274,283,665 passenges were carried by day tickets in Great Britain alone. But this was not all; for in that year 110,227 periodical tickets were issued by the different culturys; and assuming half of them to be one year. At he minutes of passengers represented by these figures. The mind is merely bewildered by them, and on ferm no adequate notion of their magnitude. To rectom them singly would occupy twenty years, counting at the rate of one a second for twelve hours.

THE Alfa has the following notice of Rev.

public will be interested in these lectures on account of their intrinsic merit, and others may be interested to know that the syalis of the lecture are to be devoted to church-building purposes in Stockton.

The lecturer has just returned from the region about which he proposes to speak, and his lecture will undoubtedly be an interesting and valuable one. The speaker possesses his subject in a pleasing manner, and being a well-versed student in Oriental literature, is unusually well qualified to talk intelligently upon the subject of travel in Bible Lands. The Independent thus notices Mr. Daly's lecture in Stockton: "The lecture was replete will interest; and what is somewhat unusual in lectures, every word he uttered was lastened to by a large and appreciative augustion of Mr. Hitchcock as a teacher, and his enthusism for a graded school, such as he has now not under way, will make this unusually well qualified to talk intelligently upon the subject of travel in Bible Lands. The ladge-natest thus notices Mr. Daly's lecture in Stockton: "The lecture was replete with interest; and what is somewhat unusual in lectures, every word he attered was listened to by a large and appreciative audience. Hev. Mr. Daly is a pleasing speaker, and he handles his subject with a master's hand. It is a pleasure to listen to him."

THE D. C. Murray sails to-day at about 2 P. M. The mails at the Post-office will close

LAST WEEK, M. Beranger, H. I. M.'s Commissioner and Consul, sailed for Kauai, and will be absent from town for a short time.

CAPT. McGRESOR reports having seen the Mile off the Konn coast boiling, having fallen in with whales on that cruising ground. Several vessels cruised there last "between seasons," some of which met with fair specess.

ACCIDENT .- While Mr. C. S. Bartow was

driving up Nauauu Valley on Thursday after-Post Wire.—The port wine district of Portugal covers us area of broken, precipitons and lofty hills, through which the Dourt River courses—say 20-by 6 through which the Dourt River courses—say 20-by 6 became unruly, injuring Mr. Bartow and consists. The wall is a brown, shally schiet. The grapes are allowed to shrink, almost the raisins, before are allowed to shrink, almost the raisins, before noon, in a carriage with several ladies, som part of the harness gave way and the horse became unruly, injuring Mr. Bartow and one

earthquake were felt at Walmea, Hawail, on Tuesday night, the 8th instant. On the 4th, at Hilo, about three P. M., a shock beavier than usual occurred, and we hear that last Thursday night, the 10th, at Kancobe, on this island, a shock was noticed.

THE desire to appear well is contagious. The new, clean finish of Mr. Rhodes's new building has inspired his neighbors to brush up the exterior of their stores also. The orner buildings of Dr. Hoffmann and F. A. Schnefer & Co. have been placed in the masons' and painters' bands, and have come out improved in appearance. The corners now

WHALER.-The whaling schooner W. H. Allen returned on Saturday from a seven months' cruise on the Line and near the Bonin Islands. The vessel was fitted out from Honolulu by Messrs. Perry, Pico and Spencer, and has made a successful catch-300 barrels of sperm oil. The oil will probably, be sold here, as there are several purchasers in the market. The latest home quotation is 1.90 per gall., in currency.

We have several times been indebted to A. J. Cartwright, Esq., for facts and dates connected with the personal history of our residents, and the shipping. As his records run back many years, they often prove most convenient and valuable for reference. These data and facts have been collected in connection with societies-masonic and others, in which he is interested. It was in contemplation, some years since, to have established a Pioneer Society, embracing all the residents coming here previous to 1850. The society was not organized, but facts were collected and remain on record. The changes wrought by time, and the shifting character of our foreign population appears very clearly in looking back over the names of the last

SUDDEN DEATH .- Mr. Thos. H. Marshall, Sheriff of Kaual, died at his residence, at Nawiliwili, on Saturday, the 5th inst. He arose in the morning in apparently good health, and was busy in his office until breakfast time, about 814 o'clock. He was seized at the table with a fit of coughing, which soon subsided by his walking about the room, but as he was scated in a rockingchair, Mr. Stubblebean, who was still at the table, observed his head fall upon his breast, and ran to his assistance. Mr. Marshall soon fell to the floor in an insensible condition, in which he remained up to his death, at 2 o'clock. He was buried the following day

on his premises at Malumalu. Mr. Marshall came to these Islands in 1850. and was appointed Sheriff of Kausi, but resigned the post on account of his health, and made a trip to China. He received his present appointment in 1863. Gen. Jas. F. B. Marshall, of Boston, formerly a resident here,

is a brother of the deceased. HILO SCHOOL -- Some of the Government The first of Rev. J. A. Daly's lectures on the Holy Land, which will be given to-night at Mercantile Library Hall, will embrace for its principal topics, Smyrns, the Greek Islands, Mount Lebanon, Mount Hermon, Dannacus, and Northern Syris. The general public will be interested in these lectures on account of their intriusic ment, and others

nel distinctly and be a guide to vessels seek- of this nation. ing to come inside in the night. The enbe guessed at by vessels, the uncertainty would neutralize the very convenience which Government, whose favor is sought. it is expected will be gained by having a light and the lantern to be twenty-five feet above the sea, visible eight miles off. The only with great fury on the reef in the kona scason, will be seven columns or piles on which the structure rests. With these securor carry it off. It was thought that with the | which must either "rule or ruin." piles tipped with Iron screws and firmly fastened in six feet of the coral, that a foundation sufficiently sure could be obtained. The object of these boat expeditions has been to bore these holes, but the first trial proved that after passing through three to four feet of coral, a layer of sand was reached that seems to be superimposed on a bed of soft mud or ooze, into this the drill sank by its own weight. At the trials last week, the depth reached was 13 feet below the surface of the coral, or twenty-three feet from that of the sea, and rocky bottom not reached. It is very likely that the ledge overhangs just at the locality where the lighthouse is to be placed, so that the drill passes through it and will reach the reef again at a depth corres

the structure. On Monday last another trial was made, and at a depth of 28% feet, solid rock was

ponding to the bottom of the harbor. This

necessary extension of the length of the piles

will add somewhat to the estimated cost of

not reached. The boring is made from a floating stage and cannot be done except on quiet days, when the smoothness of the sea permits which does not happen every day at this season of the year, with the trades blowing freshly. The appropriation for the lighthous is \$5,500, a small sum, but enough probably to creet one on the plan proposed. One built of stone and made proof against the force of the sea would cost a very large sum. The placing of a lighthouse on the reef has for years past been discussed, and at one time, many thought to build one and call it Cook's Light, would be the best disposal of the fund collected to raise a memorial to the great navigator, whose name is associated with the re-discovery of these islands in the last century. But the necessity of a light there has not been urgent, and its importance to coasters and the shipping has not been strongly felt, and therefore no decisive movement heretofore has been made But the convenience of it to the coasters, and its value to ships in dangerous weather, and the necessity of it for steamers and transient vessels will, we think, be proved conclusively, as seamen become accustomed to depend on the light in making the harbor,

NEW MUSICAL INSTRUMENT.-By an item in one of our exchanges, we notice the production of a new musical instrument called the Orchestral Piano, made by Messrs. Hallet, Davis & Co., of Boston, and which is commanding the admiration of all artists and critics who have thus far been favored with an examination of it. The instrument is a bridges into the center of the board, securing nearly one-third more of the sounding-board remarkable for its sweetness, clearness and brilliancy, while its singing qualities are more like the organ than piano. This instrument as will be seen, differs from anything until the seen, differs from anything the seen, differs from anything the seen. brilliancy, while its singing qualities are more like the organ than piano. This instru-ment, as will be seen, differs from anything before attempted, and as its success is beyond doubt, it will make a stir in the musical

has a hand printing press. A Specimen of the work of the boys, has come into our hands-A National Anthem, arranged by Mr. Mason, which we give below. The type was set by Master Brickwood, and the work looks very creditable.

1 God save our gracious King, Long may we see him reign; God save the King! Send him prosperity, And may no enemy O'erthrow his dynasty; God save the King! 2 Thy choicest gifts in store, On him be pleased to your; God save the King! May he defend our laws, And ever give us cause To slog with heart and voice God save the King!

A PIONEER CAPTAIN GONE.—Capt Roland Gelstone died at his residence in this city ast evening. Capt. Gelston arrived in San Francisco, in command of the bark Whiten, on the 18th day of April, 1849. The Whiten on the 13th day of April, 1549. The Watton was the first square-rigged craft that was taken up the Sacramento river. Arriving in that city, Capt. Gelston field his bark up to a tree, and on Sunday, having gathered together what books and tracts he had on shipboard, went ashore, collected a few children, and held the first Sunday school ever gathered in Sacramento.—Balletin.

#### NOTICE To American Citizens -AND-

Ship-Owners!

LEGATION OF THE UNITED STATES, At Honolulu, Aug. 31, 1868

FOR THE INFORMATION OF AMERICAN CITIZENS AND SHIP-OWNERS, resident on these Islands, and of American Ship Masters touching here, I deem it proper to publish the following Resolution on the subject of the Coolie Trade, which unanimously passed both Houses of the Congress of the United States, viz :

IN THE SENATE OF THE UNITED STATES January 16, 1867.
Whereas, The traffic in laborers, transport-

ed from China and other Eastern countries, known as the Coolie Trade, is edious to the people of the United States as inhuman and immoral; and whereas, it is abhorent to the spirit of modern international law and policy. grand piano, but the case, instead of being hollowed out on one side, is made straight, in its place of a mode of enslaving men differing from the former in little clae than the which have substantially extirpated the Afriemployment of fraud instead of force to make

its victims captive; Be it therefore
Resolved, That it is the duty of this Govthan has ever been attained before. The action is light, delicate and artistic, while its power is increased four-fold. The tone is remarkable for its awastness clearness and action is not to be adjacent lakes to the moral sentiment of the nation through all its Agencies, for the purpose of preventing the further introduction of Coolies into this hemisphere, or the adjacent lakes to the control of the contro

In furtherance of the humane policy adopted by the Government I represent, I also deem it Rev. Mr. Mason at his school in Lahaina my duty to call the attention of all whom it may concern, to an Act entitled "An Act to prohibit the Coolie Trade by American Citizens and American Vessels," approved, February 19, 1862, which provides: 1st-That no citizen or resident of the Uni-

ted States shall prepare any vessel to procure or carry from "China or elsewhere," persons known as "Coolies," to be disposed of, or sold, or transferred, for any term of years, or for any time whatever, as servants or opprentices, or to be held to service or labor. Any vessel owned by citizens of the United States in whole or in part, so employed, shall be forfeited to the United States.

2d-Every person building, equipping, sending to sea, or aiding to prepare in any way, or navigating as master, factor, agent, owner or otherwise, any vessel belonging in whole or in part to any United States citizen, or registered, enrolled or licensed within the United States to be employed in the above trade, or in anywise aiding or abetting therein, shall be liable to be indicted therefore, and on conviction, punished by a fine not exceeding two thousand dollars, and imprisonment not ex

3d-Any citizen of the United States who shall, contrary to the true intent and meaning of this Act, take on board, or receive, or transport any such persons, for the purpose of disposing of them as aforesaid, shall be liable to be punished as before mentioned.

4th-Free and voluntary emigrants may b taken upon the certificate of the U. S. Consul Late Lava Flow at Kahuku! or Consular Agent at the port where they embark, which certificate is to be given to the master of the vessel only upon satisfactory evidence that such emigration is actually free and voluntary.

5th-All United States laws applicable to the carriage of passengers by U. S. merchant vessels apply also to all vessels owned in whole or in part by citizens of the United States, or registered or licensed within the United States, carrying passengers between foreign ports, with the same penalties and forfeitures.

6th-The President of the United States is authorized to direct United States war vessels to examine all vessels navigated or owned in whole or in part by citizens of the United States whenever there is reasonable cause to suppose such vessels are engaged in any way in violation of this Act.

The foregoing is simply an abstract of the law, which will be found in full on page 340, volume 12, of the U. S. Statutes at large. EDWARD M. McCOOK.
